

Sealed Unit Clamping Table

The Sealed Unit Clamping Table or Edge Press is designed to be used in conjunction with hot melt sealant equipment. Atlantic Machinery's range of tables allow units to be sealed in a one man operation, with or without a primary means of spacer frame location.

AIR OPERATED

The clamping action is controlled by a conveniently situated foot pedal. The jaw pressure and speed of rise and fall is fully adjustable.

MULTI-DIRECTION

Rollers Hard wearing swivel castors allow rotation of the glass with the minimum of effort.

3 STANDARD SIZES

There are three standard sizes:
1600 x 2000mm - single piston, 1600 x 2500mm - single piston,
1600 x 3000mm - twin piston design. Other sizes available on request.

The company pursues a policy of continual product development and improvement. These specifications may be subject to change, therefore, and shall not form part of any contract.

OPEN ENDED JAW

This design allows glass units larger than the table length to be sealed as efficiently as smaller sizes.

CLAMPING GAP

Suits any sealed unit with a thickness of up to 42mm and is cushioned by heavy industrial foam.
