

Digital Spacer Bar Saw

Our Digital Spacer Bar Saw provides a faster, safer and more accurate means of cutting either spacer or georgian bar. The operator can remain in one position adjusting the stop distance with an easy to use wheel and digital display. The clamping and cutting of the bar is then activated by pressing the foot switch, making it impossible for any blade related accidents. Repetitive Georgian cuts can be accurately done using the locking stop and tape for consistency.

FEATURES

- ▶ Programmable offset ie 23, 24, 25mm less than glass size.
- ▶ Quiet machine designed for constant running.
- ▶ Removable swarf tray.
- ▶ Accurate lock stop for repetitive Georgian bar cuts.
- ▶ Adjustable speed of cutter movement.
- ▶ Adjustable Bar clamping pressure.

SPECIFICATION

- ▶ Power: 3phase electricity rated at 16Amps, plus neutral plus earth.
- ▶ Compressed Air: 100psi, 2 - 4cfm.
- ▶ Standard infeed and outfeed tracks 3mtr. Max cut 2700mm.
- ▶ Dimensions: Length - 6500mm, depth - 650mm, Height - 1300mm
- ▶ Suitability aluminium, warmedge and georgian bars.

OPTIONS

- ▶ Choice of running direction: left or right hand feed.
